Title **The 20th International Conference on Systems, Signals and Image Processing (IWSSIP) - IEEE Conference (#31580)**

Event Category Professional

Event Sub-category Professional (Other)

Description IWSSIP was initiated in 1994 by Professor Kalman FAZEKAS from the Budapest University of Technology and Economics, Budapest, Hungary. He started it as a scientific event meant to stir the research in theory, methodology, systems and applications of signal and image processing, and to attract and stimulate young researchers. IWSSIP 2013, the 20th anniversary edition was organized by Prof. Paul Dan CRISTEA from University POLITEHNICA of Bucharest. It was the second occurrence of IWSSIP in Romania, after the one from 2001. Prof. Paul CRISTEA extended the classical domains of interest for IWSSIP to genomic signals processing and to the study of complex systems using intelligent signal processing.

Keywords signal, image, genomic signals, processing
